300 degrees of skiing off Lone Peak, surrounded by three other mountains, spans 5,850 acres of terrain to explore. If you're just starting out on the snow, 2,300 of those acres are beginner and intermediate terrain that's perfect for learning and improving your technique. For the experts, Big Sky provides lift-served access to some of the most aggressive in-bounds terrain in the world.

Whatever your skiing expertise, there are runs waiting for you to explore! Don't miss this opportunity!
